

LEADING THE WAY TO SUBSTATION AUTOMATION

DNV GL is the first and leading (level A) test lab for IEC 6185 conformance testing, interoperability testing and functional testing.

UniGrid is DNV GL's easy-to-use test tool for testing IEC 61850 (edition 1 and 2) substation automation systems.

Modules:

- UniGrid 61850 Protocol analyser
- UniGrid 61850 SCL Checker
- UniGrid 61850 Client + GOOSE simulator
- UniGrid 61850 Multi-IED simulator
